LETTER OF APPRECIATION

1. VTS system fitted onboard is a very critical equipment to ensure sea worthiness of the ship. Ship had raised defect for chemical cleaning of VTS system pipelines as the same was choked at multiple locations leading to non-operational of the WCs, which was a serious concern for the ship.
2. Based on the directives of FMU(V), your team examined the defect and finalised the scope of work along with ship's staff. The team was very proactive and undertook the work in the most efficient manner. All the pipelines post chemical cleaning were inspected by ship's staff and the quality of work was found be of high standard.
3. **Mr. G Jogudora and his team** have completed the work in a time bound manner and their efforts are highly appreciated.

Yours faithfully

(Sandeep Shorey)
Commander
Executive Officer
